

# CA Cula Superfat

CA Cula Superfat is a distinctive fatty typeface, mainly intended for display purposes.

You will find out that it looks best in extremely large sizes, or in very small ones. Whatever you do, avoid the ordinary and expectable. It's not only beautifully fat, it's also useful. A central European character set, loads of ligatures, oldstyle and lining figures make it a versatile companion in the daily struggle for outstanding typography.

# Lorem ipsum

# Regular (18/20 pt)

A man without love's only half of a man. But a woman is nothing at all. I'm drinking champagne feeling no pain till early morning. She tries hard to hide. Dining and dancing with every pretty girl I can find. So little expected. Having a fling with a pretty young thing till early morning. Too often neglected, knowing tomorrow I'll wake up with

# Regular (10/13 pt)

A man without love's only half of a man. But a woman is nothing at all. I'm drinking champagne feeling no pain till early morning. She tries hard to hide. Dining and dancing with every pretty girl I can find. So little expected. Having a fling with a pretty young thing till early morning. Too often neglected, knowing tomorrow I'll wake up with you on my mind. "A woman stripped of her pride." Guilty conscience I guess though I must confess. Always so careful not to cry.

I never loved you much when you were mine. Until I fall asleep. So I'll keep drinking champagne and feeling no pain till early morning. Then there in the silence. Dining and dancing with every pretty girl I can find. She lies with a tear on her cheek. I'll keep having a fling with a pretty young thing till early morning. A thought comes to mind. Knowing tomorrow i'll wake up with you on my mind. Did I read it sometime? So i'll keep

NOTE	CA Cula Superfat is an OpenType font family and contains more characters than are directly accessible through the keyboard.	
	Some characters or OpenType features subject to application support.	
	By default CA Cula Superfat will set numbers as tabular lining numerals (fixed width), but you may also decide to use numerals differently by chosing the corresponding OpenType option in your layout program. Good luck.
